Harrisburg, PA 17120

Gentlemen:

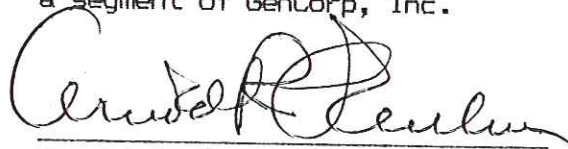

On November 13, 1989 we wrote advising of our intent to remove two temporarily out-of-use underground storage tanks, numbers 012 and 013, for our facility numbered 6-518645. The required top of the tank site soil testing is complete. The test date indicates:

Total Petroleum Hydrocarbons	ug/g
Tank 13	3,300
Tank 12	2,300

We expect to initiate the excavation and removal of these tanks in early 1990, at the conclusion of which a revised PA Registration of Storage Tanks Form ER-BWQ-11:10/89 and EPA Form 7530-1 (11-85) will be filed.

Very truly yours,

GenCorp Polymer Products
